About the Hike:

The trail begins through the beautiful canyons at the bottom of Jabal Jais, where you'll scramble across boulders and enjoy diverse terrains and views. After a couple of hours hiking through the wadi, we finally reach the hidden oasis where we'll be taking our lunch break and conducting an optional, free yoga session.

We finally hike back the same way to our cars and the famously delicious Grasper BBQ. Hiking shoes are not required but recommended for maximum safety and comfort. Please contact us for hiking shoes recommendations and discount codes.

Transportation:

4 Wheel Drives are not needed to get to the starting point. If you do not have a way to get to the meeting point, please contact us and we are happy to help try arrange a carpool for you.
